Hi Gio,

All is well with me. And u?

I am glad that you found a new position and things are working out for you. Della keeps me posted on how you are doing. She is a good friend and great company.

Well, things here are changing. As of July, the drug lab will not be part of DPH but DPS (public safety). Hopefully, the drug lab will get more training and money.

It is great to hear from you . . . keep in touch :)

Annie
